# Yuca

## 000 Natur

Ref. 22011

Yuca is the perfect combination of linen and polyester in a fabric that stands out for its rustic elegance, designed to capture the essence of nature and provide a touch of sophistication to spaces.

A curtain fabric from Equipo DRT in which the authenticity of linen fiber is balanced with the durability of polyester, resulting in a soft, semi-transparent texture, which allows an average amount of light to pass through, creating a cozy and relaxing ambience in any room.

Available in a wide range of colours from white to gray and greige, Yuca is that stylish, functional fabric which makes curtains look and decorate without vehemence.
